

# Fare Changes

## From 7th April 2025

Following the introduction of ticket zones in June 2022, Metro fares remained frozen until 2024. To ensure that we can continue to invest in the network and deliver the high levels of service that our customers rely upon, it has been necessary to apply modest increases, which have been consistently lower than inflation and other transport options in the region.

We are confident that our range of tickets offer great value for our customers to travel conveniently and cost-effectively across the network.

### Adult - Metro Only

Unlimited tram travel within the Metro travel zones purchased.
